Ultimate Wax Job

Ultimate Wax Job Step by Step

1. Perform the Ultimate Wash Job on your bike.
2. Move your bike inside the garage or out of the sun.
3. Prep your paint and plastic by cleaning microscopic bug splats, tree sap, tar and oil using the Paint Cleaning Clay and Speed Shine together.
4. Polish your plastic windscreen with a Mini Orange Polish Pad and Plastic Polish, then finish and maintain it each ride with Plastic Cleaner.
5. Use the Random Orbital Buffer with the Orange Polish Pad and Machine Polish to polish large areas. Use the Mini Orange Polish Pads And Fine Hand Polish to polish tight painted areas.
6. Polish your chrome with Chrome Polish.
7. Remove all polish with a yellow Micro Fiber Polish Removal Cloth before you begin waxing.
8. Apply Best of Show Wax with either the Random Orbital Buffer (for large areas) equipped with a Red Wax Pad and the Mini Red Wax Pad (for tight areas).
9. Finish up by removing the wax using a white Micro Fiber Wax Removal Cloth.
10. Time to go impress your buddies with that shiny bike!
